
Butte County Mosquito and Vector Control District

POLICY MANUAL

POLICY TITLE: Aircraft Use
POLICY NUMBER: 3105

3105.1 District aircraft shall be used for mosquito surveillance and control activities that benefit the residents of the District's service area. District aircraft will be used within the District's service area. Mosquito surveillance and control activities may take the District aircraft outside of the District's boundaries based on a need to best serve the residents of the District.

3105.2 District aircraft shall not be used for any purpose as a benefit to any other district and/or agency or residents of another district and/or agency unless authorized by prior Board approval except in situations as described in Policy 3000 and 3085.
